Insightee

Data Security

We keep your data safe

Effective Date: 2023-04-24

OUR INFRASTRUCTURE

Insightee operates on servers that comply with strict international standards. Servers are committed to transparent and secure handling of all personal data on our network. Their processes have gone through an extensive procedural and legal review to ensure we fully meet the requirements set forth in the EU General Data Protection Regulation (GDPR) legislation. Data centers also comply with standards: SOC 2 Type 2 and PCI. Vultr has created US and international privacy policies that align with regulations such as CCPA, GDPR, LGPD, PDPL, and others.

TRAINING

We use the latest technologies and best practices to protect data. All employees at Prior to working with a client, employees at Insightee undergo instruction on data security to ensure we meet the highest standards.

DATA PRIVACY

Our servers on Vultr comply with applicable data protection laws. Compliance details within US and EU can be found at:
https://www.vultr.com/legal/compliance/

ADDITIONAL SECURITY MEASURES

We store passwords in an encrypted way in the database and use unique salts.
